

Transfer Task: *Slideshow Presentation*

You will be designing a slideshow with your “home” tribe to share with your “away” team. Each team member will be responsible for creating one slide for the presentation. Each slide pertains to one section that you researched about your tribe such as:

- Geographic Location (Where they lived)
- Food & Resources
- Shelter
- Clothing/Attire
- Government/Religion (Beliefs)
- What Happened to Them?

Each presentation can be found on the class Weebly page under the current unit and activity list by class. Just click on your tribe and that will link you to the pre-created slideshow.

There is a how-to video titled “How to Create/Edit a Slideshow” that will provide you with further instructions on how to build your presentation.

Your project will be an individual and group grade. The grading scale is as follows:

Individual Scale: (Slide)	
4 Expert	All of level 3, including: <ul style="list-style-type: none"> - Writing facts & details in paragraph format - Uses transitional words and phrases - Includes descriptive words/phrases - Expert use of grammar and conventions.
3 Practitioner	<ul style="list-style-type: none"> - Minimum of 3 facts written using complete sentences. - Enough details are provided to support the main topic - 2+ pictures or graphics - Acceptable use of grammar and conventions.
2 Apprentice	<ul style="list-style-type: none"> - 2 facts given and/or information is not written using complete sentences. - Information is lacking key details. - Limited use of pictures or graphics - Few errors in grammar and conventions.
1 Novice	<ul style="list-style-type: none"> - Little to no facts & details are provided. - Information is vague and unclear. - No graphics are used. - Many errors in grammar and conventions.

Group Scale: (Presentation)	
4 Expert	All of level 3, including: <ul style="list-style-type: none"> - Use of transitions between slides that enhances the presentation. - Expert use of media, including video/ audio clips.
3 Practitioner	<ul style="list-style-type: none"> - Overall presentation is appealing to the eye and cohesive. - The information included has a feeling of completeness. - Students worked collaboratively, respectfully and were on task.
2 Apprentice	<ul style="list-style-type: none"> - Presentation is somewhat appealing, but lacks a feeling of completeness. - Students had some difficulty working together as a group and were off task occasionally.
1 Novice	<ul style="list-style-type: none"> - The group did little to make the presentation appealing and/or is very disorganized. - Students had a very difficult time working together or did not complete the task within a reasonable time.
